## § 746.3

also to assisting small business and minority business enterprises, as well as economically depressed, low income, and labor surplus areas, and whether each or any applicant is a United States citizen or corporation. Where there is more than one applicant for an exclusive license, that applicant shall be selected who is determined to be most capable of satisfying the criteria and achieving the goals set forth in this part.

- (d) Subject to the following: (1) Any existing or future treaty or agreement between the United States and any foreign government or inter-governmental organization, or
- (2) Licenses under or other rights to inventions made or conceived in the course of or under Department of the Navy research and development contracts where such licenses or other rights to such inventions are provided for in the contract and retained by the party contracting with the Department of the Navy, no license shall be granted or implied in a government invention, except as provided for in this part.
- (e) No grant of a license under this part shall be construed to confer upon any licensee any immunity from the antitrust laws or from a charge of patent misuse, and the acquisition and use of rights pursuant to this part shall not be immunized from the operation of state or federal law by reason of the source of the grant.

## §746.3 Delegation of authority.

The Chief of Naval Research is delegated the authority to administer the patent licensing program, with the authority to redelegate such authority.

## § 746.4 Definitions.

- (a) Government invention means an invention covered by a domestic patent or patent application that is vested in the United States and in the custody of the Department of the Navy, and is designated by the Chief of Naval Research as appropriate for the grant of an express non-exclusive or exclusive license
- (b) To the point of practical application means to manufacture in the case of a composition or product, to practice in the case of a process, or to operate in the case of a machine, under such con-

ditions as to establish that the invention is being worked and that its benefits are reasonably accessible to the public.

# § 746.5 Government inventions available for licensing.

Government inventions normally will be made available for the granting of express nonexclusive or limited exclusive licenses to responsible applicants according to the factors and conditions set forth in §§746.6 and 746.7, subject to the applicable procedures of §746.11. The Chief of Naval Research may remove a prior designation of availability for licensing of any patent(s) or patent application(s), provided that no outstanding licenses to that invention are in effect.

#### § 746.6 Nonexclusive license.

- (a) Availability of licenses. Each government invention normally shall be made available for the granting of non-exclusive revocable licenses, subject to the provisions of any other licenses, including those under §746.8.
- (b) Terms of grant. (1) The duration of the license shall be for a period as specified in the license agreement, provided that the licensee complies with all the terms of the license.
- (2) The license shall require the licensees to bring the invention to the point of practical application within a period specified in the license, or such extended period as may be agreed upon, and to contine to make the benefits of the invention reasonably accessible to the public.
- (3) The license may be granted for all or less than all fields of use of the invention, and throughout the United States of America, its territories and possessions, the Commonwealth of Puerto Rico, and the District of Columbia, or in any lesser geographic portion thereof.
- (4) After termination of a period specified in the license agreement, the Chief of Naval Research may restrict the license to the fields of use and/or geographic areas in which the license has brought the invention to the point of practical application and continues to make the benefits of the invention reasonably accessible to the public.
